

ENGSCI 712 – Computational Techniques for Signal Processing

Module I: Feature Extraction, Lecture 3 – Assignment 1.1

Andreas W. Kempa-Liehr

ENGINEERING

Department of Engineering Science

29.07.2020 – FE03-CSP.pdf, Rev. (None)

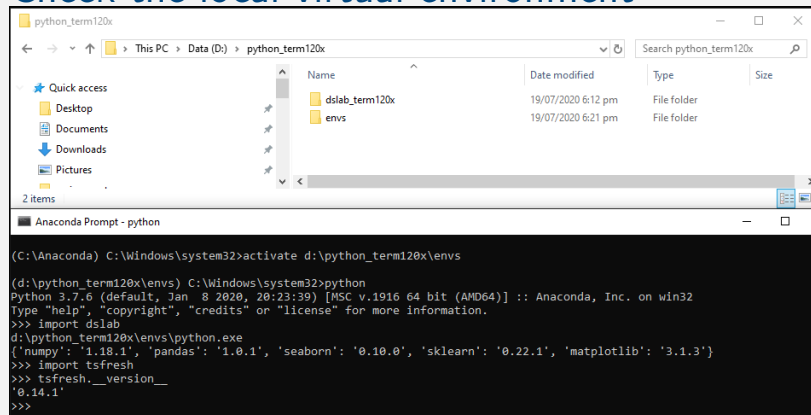

Outline

1. Setup

Setting up your development environment

Lab Computer in 439-427

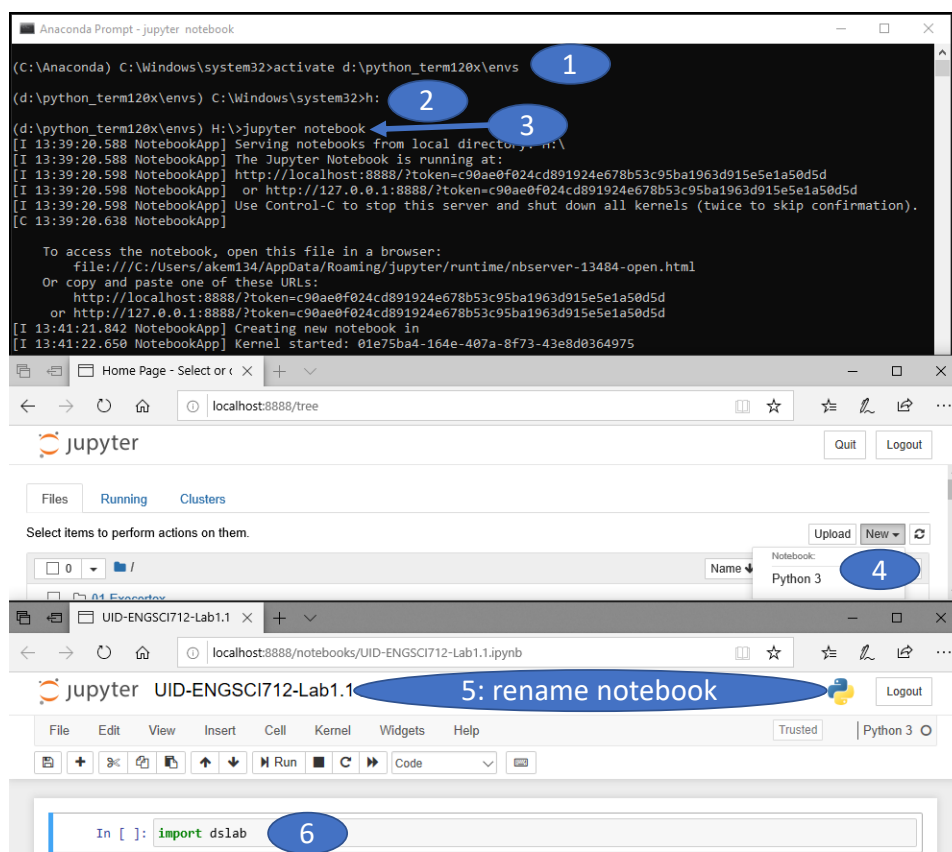

Check the local virtual environment

Private Computer

- Follow the instruction at [Browse Data Science for Engineering Applications / DSlab - Stash](#)

6 Steps to create a Jupyter Notebook

Assignment task 1.1

Download FE03-CSP-assignment_1.1.ipynb from Canvas -> files -> assignment 1
